DHEERAJ KUMAR JHA

E- Mail : dheerajjha202@gmail.com
Phone : 08750759937

An enthusiastic & high energy-driven professional targeting challenging assignment in **Application Development/ Software Development** with a reputed organization in **IT** industry

Location Preference: Delhi/NCR

PROFILE SUMMARY

An IT professional with **over 2 years 9 months** of experience in Software Development, Requirement Gathering
Skilled in developing .Net applications with an understanding of OOPS; working knowledge of Microsoft technologies like .NET framework 3.5,4.0,4.5, ASP.NET, MVC, C#, SQL Server,MYSQL, JavaScript ,J query, Angular Js.
Successfully worked on 3-tier, n-tier & n-layer Architecture
Extensive project management and R&D experience, with conceptual understanding of the application development life cycle and software development methodologies
Contributing as an individual contributor with key responsibilities of development, bug fixing and unit testing
Experienced in contributing actively throughout the development phase by tracking technical issues, conducting risk analysis and solving problems especially for the issues spanning across multiple programs
An effective leader with proven skills in working with cross cultural teams during the project phase; guiding team members

CORE COMPETENCIE

~ **Software Development**	~**Project Management**	~ **Technical Documentation**
~ **Unit Testing**	~ **Liaison/Coordination**	~ **Requirement Gathering/ Analysis**
~ **Coding & Bug Fixing**	~ **Production Debugging**	~ **Client Engagement**

ORGANISATIONAL EXPERIENCE

TI Infotech Pvt Ltd. (CMMI -3) as Dot Net Consultant   **Since 1st June 2018**
Infospry Technologies as Software Developer   **Since Feb 2016 to 31 May 2018**

Key Result Areas:

Managing software development operations inclusive of defining system wide requirement analysis and designing as well as module level work effort estimations and integration for the whole system;
Analyzing the client needs and software requirements for determining feasibility of design within time and cost constraints & conducting requirement gathering; consulting with clients about software system design and maintenance
Assisting in fixing bugs on time keeping client's priorities in mind
Conducting system study and coordinating with team members for product documentation, system design & integration, coding & application maintenance before passing to the client
Progressively making critical technical strategy decisions and course correction that define the system in terms of implementation, operations and maintenance
Identifying defects, questionable functions, errors, and inconsistencies in software program functions, outputs, online screens, and content for the betterment of the development process
Providing post-implementation, application maintenance and enhancement support to the client with regards to the product / software application
Recognizing documents related to components and maintaining detailed study of the same as per the product changes, by getting in touch with the product developers
Interacting with team members for ensuring smooth progress of project work; ensuring adherence to quality norms throughout the implementation process
Maintaining project schedule and communicating project status to the management
Minimizing risk through project risk identification and mitigation action planning with the team

Highlights:

Collaborated with vendors for successfully developing Medico Partners with Hand Held Device complex engineering applications over a period of months, while adhering to the software development process and security procedures.

ACADEMIC DETAILS

Pursuing MCA from IGNOU
B.Sc.IT from SMU University, Manipal in 2016 .

IT SKILLS

Microsoft Technologies:	C#, ASP.NET, ASP.NET MVC, Framework 3.5/4.0/4.5
Internet Technologies:	AJAX, JavaScript, J query, HTML, CSS,Bootstrap
Persistence:	ADO.NET
RDBMS :	SQL Server 2008 R2/2012/2014, MySql
Services:	Web Services,WCF.
Third Party APIs:	Google API,Payment Get way
IDE:	Visual Studio 2010/2012/2013
Development Tools:	TFS (Team Foundation Server.)
Software:	Beyond Compare.

PERSONAL DETAILS

Date of Birth: 25th June1994
Languages Known: English & Hindi
Mailing Address: A-614,New Ashok Nagar East Delhi -110096, Delhi.
Permanent Address: H.No-64,Vill+Post- Korthu,Via-Benipur,Darbhanga - 847103, Bihar.

(Refer to Annexure for Major Projects)

ANNEXURE

Title: **CSBT**
 Client: **FCM Travel**, Nairobi, Kenya
Duration: 3 Months
Role: **.Net Consultant**
Scrum Team Size: 7
Duration: Aug'18 to Present
Technologies & Environment: .NET Framework 4.0, ASP.NET MVC, Web Service,ADO.NET, SQL Server 2008,Jquery,AngularJs,Web Api.
Brief: The project entailed designing a Web Application for Travel Domain.

Responsibilities:

Developing understanding functional requirement along with Lead, Management Team & CTO

Preparing designs of functionality of services and GUI

Writing functions, classes & services to achieve the documented functional requirement

Conducting:
  o   Unit level testing and bug fixing
  o   Maintenance of project

Title: **TripPoints**
Client: **Tripoints Travel ,Canada**
Duration: 3 Months
Role: **.Net Consultant**
Scrum Team Size: 7
Duration: Jun'18 to August
Technologies & Environment: .NET Framework 4.0, ASP.NET MVC, Web Service,ADO.NET, SQL Server 2008,Jquery,AngularJs,Web Api.
Brief: The project entailed designing a Web Application for Travel Domain.

Responsibilities:

Developing understanding functional requirement along with Lead, Management Team & CTO

Preparing designs of functionality of services and GUI

Writing functions, classes & services to achieve the documented functional requirement

Conducting:
  o   Unit level testing and bug fixing
  o   Maintenance of project

Title: **Medico Partners**
Client: UK, Health Care
Duration: 9 Months
Role: Software Developer
Scrum Team Size: 3
Duration: Jul'17 to Present
Technologies & Environment: .NET Framework 4.0, ASP.NET, Web Service,ADO.NET, SQL Server 2008,Jquery.
Brief: The project entailed designing a Web Application for Health Care.

Responsibilities:

Developing understanding functional requirement along with Lead, Management Team & CTO

Preparing designs of functionality of services and GUI

Writing functions, classes & services to achieve the documented functional requirement

Conducting:
  o   Unit level testing and bug fixing

o   Maintenance of project

Title:	**Ovihams**
Client:	Delhi, Health Care
Role:	Software Developer
Team Size:	2
Duration:	Sep'16 -April'17
Technologies & Environment:	.NET Framework 4.5, ASP.NET, Web services, ADO.NET, MySql, Jquery(Callback functions, validations), Google API.
Brief:	The project entailed designing a Web Application/Web Service for Out Centre and Field Health Care.

Responsibilities:
Understood functional requirement along with PO & team and estimated the stories
Wrote functions, classes & services to achieve the commitment of team
Performed code review as per the company standards and conducted unit level of testing and bug fixing
Delivered enhancement & maintenance of project

Other Projects:
   Successfully completed:
- Medico Partners
- Ovihams
- Online Test
- ITR (Income Tex Return)
- SMS (School Management System)
- Education Management System
- Lead Management
